En Roles Assignable to Z 8 Custom Controls (Available Roles for Custom Controls)

Users can choose the roles played by certain camera controls during still photography, video recording, and playback. This document provides a list of the functions that can be assigned to each control.

- The items shown may vary with the lens and with lens and camera firmware. The tables that follow list the items shown when a NIKKOR Z 70–200mm f/2.8 VR S lens with lens firmware version 1.21 is attached to a camera with "C" firmware version 1.0x.

Still Photography

The roles played by custom controls during still photography are chosen using Custom Setting f2 [**Custom controls (shooting)**].
